Mount Laboratories was formed in 2000 to provide scientific equipment to a growing pharmaceutical, life sciences research and applied life science markets in the UK and Emerging Economies.

We combine scientific research expertise, product specification know-how with commercially attuned sales staff who have worked across the scientific marketplace's sub-sectors. Mount Laboratories is gaining recognition in various Sub Saharan African markets and South East Asia.N

Our core expertise is to supply international clients with Laboratory systems. We do this by providing an integrated service which consists of lab systems auditing, sourcing, procuring, consignment consolidation, freight logistics project management and financing.

Our product range and sector specific technologies cover Quality Laboratory Apparatus, Lab Chemicals Reagents, Media for Quality Control Labs, Food and Beverage, Agricultural, Livestock & Medical Research Institutes, Hospital & Clinical Labs, Pharmaceutical, Sugar, Cocoa Board, Coffee, Drinking/Potable/Waste Water, Oil & Gas.

Our success in this business is due to how we work directly with "end-user" clients, as a result service delivery and after sales support is better project managed. We find that our emphasis on quality control embedded in our processes impacts on our client's capacity development processes, particularly in emerging markets. This has set us up on a retainer based relationships and partnerships.

We have several partnering relationships in place with West and East African representatives to provide lab systems integration and support in all of our product categories and technologies. They have specialist knowledge on the products and technology sectors within our portfolio. All of these resource capability enable us to provide you with comprehensive pre and post sales support function and representation .

Currently with a sales force of scientists, technologist an marketing communications we are set up to respond to client's lab related operational challenges. We offer quality certified products and technologies from exclusive relationships with a roster of reputable suppliers.

Our service facility for post-sales support is located in Loughborough, UK. We have a comprehensive digital lab catalogue available on request or a print version which we would be pleased to courier directly to you.

We will be happy to discuss your specific requirements where you need us to procure items outside our standard laboratory range, audit your laboratory systems or commission new systems.
